How are samples selected / marked?

\_\_\_ Circled on racking list

\_\_\_ Vial lids marked

\_\_\_ Spreadsheet or list provided

Any additional comments or instructions regarding these samples:

You may use this side to list the cows and sample numbers that are to be tested.  
Be sure to use the same sample number as on the vial and racking list.

|    | <b>Sample #</b> | <b>Cow</b> |
|----|-----------------|------------|
| 1  |                 |            |
| 2  |                 |            |
| 3  |                 |            |
| 4  |                 |            |
| 5  |                 |            |
| 6  |                 |            |
| 7  |                 |            |
| 8  |                 |            |
| 9  |                 |            |
| 10 |                 |            |
| 11 |                 |            |
| 12 |                 |            |
| 13 |                 |            |
| 14 |                 |            |
